

HARDSCAPES USA

Tumblewall

HARDSCAPES USA™ RETAINING WALL BLOCK

For more product information and project ideas online, please visit www.hardscapesusa.com.

Hardscapes USA's Tumblewall Retaining Wall Block combines installation simplicity with the charming appearance of natural stone to bring distinction to any outdoor project. Its rectangular shape and weight make it a perfect choice to build everything from fence columns to raised garden planters.

Tumblewall can be installed using mason bond adhesive, mortar, or in certain applications, dry-stacked. Other uses for this product include landscape walls, outdoor kitchens, firepits, grill enclosures, columns, benches and fountains.

Product Composition:

Hardscapes USA Tumblewall units are made with zero-slump concrete, which is then hydraulically pressed while being subjected to extremely high frequency vibrations. This process results in a product with a compressive strength of 3,000 psi or greater and a moisture absorption of less than 5%.

About Hardscapes USA:

Hardscapes USA is a manufacturer and distributor of a wide range of quality concrete products including pavers, retaining wall units, and patio products. They are produced and distributed throughout the Southeast and are used in residential, commercial, and industrial construction.

Hardscapes USA products are synonymous with distinctive applications and have earned a reputation for both quality and durability. Hardscapes USA products are well-suited for both the discriminating design application and the heavy-duty, functional project.

The information contained herein is accurate to the best of our knowledge, but Hardscapes USA assumes no liability whatsoever for its accuracy or completeness. Final determination of suitability of any material is the sole responsibility of the user.
